What the Media say about ZOHO:

"I've become [fond] of the impeccable ZOHO label. ... Its relentless drive for excellence has come to place it, I aver, in a position to begin to threaten the most impressive record imprint of all time: ECM ... ZOHO has been remarkable in its releases, one right after the other. Several ambitious recent discs of large ensembles presenting highly intelligent original opuses have left me in a state of rapture that still hasn't faded ..."

June 2013

"...when the ZOHO label insists on issuing genius level jazz reaching over into neoclassicalism and then just gets more and more outrageously excellent each passing month, what the hell can I do?? ... I was adrift and aimless, ... and then [ZOHO] PR guy Jim Eigo started sending these transcendent Z discs. Well, I've been brainwhacked ever since, and whatever the cure is, I don't want it."
